To whom it may concern:

I have worked with Irwin Lambersky for 20 years in the electronics distribution industry. 15 plus of those years has been as our official distributor for Canada for all of our EMI/RFI product lines. Within those years, The ID Group has grown and greatly increased our business in the Canadian and North American markets and is now our #1 distributor of our standard products for BeCu gaskets and fabric over foam EMI shielding gaskets. What makes The ID Group unique is that they have the capacity and expertise of working with design engineers as well as purchasing to help spec in solutions in a cost effective manner, not your typical distributor of part numbers and catalogs. I highly recommend Irwin and his company. Please feel free to call or email with any further questions you may have.

Best regards,

Peter Stavrous
